

Kennedy White

Kennedy states that she has faced adversity in her life. She states that she could have chosen to give up and fail or allow the negativity to destroy her ambiance. However, she chose optimism and used failures as fuel. Kennedy stated that although her parents divorced when she was young, her father is still active in her life. Her life has not been easy living with her single-parent mother but she stressed that those difficult times have made her strong.

Kennedy plans to major in Biology at Huston Tillotson University, seeking a degree that will lead to her becoming a General Nurse Practitioner. She indicates that she plays volleyball. After graduation she plans on becoming involved in the community as she has many times in the past. She has spent time giving out food and welcoming people for meals.
